Arab Spring, wave of pro-democracy protests and uprisings that took place in the Middle East and North Africa beginning in 2010 and 2011, challenging some of the region's entrenched authoritarian regimes. Demonstrators expressing political and economic grievances faced violent crackdowns by their countries' security forces.

Even the most seasoned Middle East observers were taken aback by the events of early 2011. Protests born of oppression and socioeconomic frustration erupted throughout the streets; public unrest provoked violent police backlash; long-established dictatorships fell. How did this all happen? What might the future look like, and what are the likely ramifications for the United States and the rest of the world? In *The Arab Awakening*, experts from the Brookings Institution tackle such questions to make sense of this tumultuous region that remains at the heart of U.S. national interests. The first portion of *The Arab Awakening* offers broad lessons by analyzing key aspects of the Mideast turmoil, such as public opinion trends within the "Arab Street"; the role of social media and technology; socioeconomic and demographic conditions; the influence of Islamists; and the impact of the new political order on the Arab-Israeli peace process. The next section looks at the countries themselves, finding commonalities and grouping them according to the political evolutions that have (or have not) occurred in each country. The section offers insight into the current situation, and possible trajectory of each group of countries, followed by individual nation studies. *The Arab Awakening* brings the full resources of Brookings to bear on making sense of what may turn out to be the most significant geopolitical movement of this generation. It is essential reading for anyone looking to understand these developments and their consequences.

This "lucidly written" account of the 2011 wave of revolutions "includes a wealth of astute analysis on the politics of the region, from Morocco to Oman" (Paul Hokenos, *The National*). Sparked by the protest of a single vegetable seller in Tunisia, the flame of revolutionary passion swept across the Arab world in what has come to be called the Arab Spring of 2011. Millions took to the streets in revolt. The governments of Tunisia, Egypt, and Libya fell, other regimes remain embattled, and no corner of the region has escaped unchanged. Here, Middle East experts Lin Noueihed and Alex Warren explain the economic and political roots of the Arab Spring and assess the road ahead. Through research, interviews, and a wealth of firsthand experience, the authors explain the unique obstacles each country faces in maintaining stability. They analyze the challenges many Arab nations face in building democratic institutions, finding consensus on political Islam, overcoming tribal divides, and satisfying an insatiable demand for jobs. In an era of change and uncertainty, this insightful guide provides the first clear glimpse of the post-revolutionary future the Arab Spring set in motion.

The African Renaissance and the Afro-Arab Spring addresses the often unspoken connection between the powerful call for a political-cultural renaissance that emerged with the end of South African apartheid and the popular revolts of 2011 that dramatically remade the landscape in Egypt, Libya, and Tunisia. Looking between southern and northern Africa, the transcontinental line from Cape to Cairo that for so long supported colonialism, its chapters explore the deep roots of these two decisive events and demonstrate how they are linked by shared opposition to legacies of political, economic, and cultural subjugation. As they work from African, Islamic, and Western perspectives, the book's contributors shed important light on a continent's difficult history and undertake a critical conversation about whether and how the desire for radical change holds the possibility of a new beginning for Africa, a beginning that may well reshape the contours of global affairs.

Offering a comprehensive, up-to-date examination of the complex web of wars and proxy wars, revolutions and counter-revolutions that are ripping the Middle East apart, this book puts these events in their historical context and leads readers through the labyrinth that is the new Middle East. This book seeks answers to pressing, contentious questions. Why are there so many hereditary heads of state in the Middle East when the Prophet Muhammad did not appoint a successor? Why do Western countries claim to want democracy in the Middle East, yet support dictators? Why did Israel become a democracy while the Arab states did not? Why are there so many wars in the Middle East? And, most importantly, what happened to the hope and optimism of the Arab Spring? M.E. McMillan offers fresh answers to these difficult questions. Firmly grounded in historical research and insightful analysis of current events, this book gives readers a new understanding of what's really going on in the Middle East.

Kurdistan, the name given to the Kurds' historical homeland, is a landlocked region that lies at the crossroads of Turkey, Syria, Iraq and Iran. After the fall of Ottoman Empire the Kurdish people were promised independence by the treaty of Sevres in 1920. The Kurds are known as a nation without borders and consider as a stateless people. Aftermath of the Arab Spring in 2010, Kurdistan has witnessed an increase in nationalism and a shift in geo-politics. The book examines the various models which could be acceptable solution to the Kurdish problem in West Asian region. It also evaluates the role of the Kurdish diaspora placing Kurdish issue in the international forum. The Kurdish Peshmerga and YPG militia maintains one of the strongest forces confronting against the ISIS in West Asian region.

Groundbreaking essays by female activists and scholars documenting women's resistance before, during, and after the Arab Spring Images of women protesting in the Arab Spring, from Tahrir Square to the streets of Tunisia and Syria, have become emblematic of the political upheaval sweeping the Middle East and North Africa. In *Women Rising*, Rita Stephan and Mounira M. Charrad bring together a provocative group of scholars, activists, artists, and more, highlighting the first-hand experiences of these remarkable women. In this relevant and timely volume, Stephan and Charrad paint a picture of women's political resistance in sixteen countries before, during, and since the Arab Spring protests first began in 2011. From Egypt to India, and from Botswana to London, worker, youth and middle class rebellions have taken on the political and bureaucratic status quo. When most people can no longer earn a decent wage, they pit themselves against the privilege of small, wealthy and often corrupt elites. A remarkable feature of the protests from the Arab Spring onwards has been the salience of images, songs, videos, humour, satire and dramatic performances. This collection explores the central role the aesthetic played in energising the massive mobilisations of young people, the disaffected, the middle classes and the apolitical silent majority. Discover how it fuelled solidarities and alliances among democrats, workers, trade unions, civil rights activists and opposition parties.

From the author of the book that uniquely predicted the Egyptian revolution, a new message about the Middle East: everything we're told about the Arab Spring is wrong. When popular revolutions erupted in Tunisia and Egypt, the West assumed that democracy and pluralism would triumph. Greatly praised author and foreign correspondent John R. Bradley draws on his extensive firsthand knowledge of the region's cultures and societies to show how Islamists will fill the power vacuum in the wake of the revolutions. This vivid and timely book gives an original analysis of the new Tunisia, Egypt, Syria, Yemen, Libya, and Bahrain by highlighting the dramatic spread of Saudi-funded Wahhabi ideology, inter-tribal rivalries, and Sunni-Shia divisions. Bradley gives a boots on the ground look at how the revolutions were first ignited and the major players behind them, and shows how the local population participated in and responded to the uprisings. In Tunisia he witnesses secularists under violent attack and in Egypt observes radical Islamists taking control of the streets. He illuminates the ancient sectarian strife shaking Bahrain, fierce civil war pitching tribe against tribe in Libya and Yemen, and ethnic divisions threatening to tear apart Syria and Iran. Taking it one step further, Bradley offers a comprehensive look at how across countries, liberal, progressive voices that first rallied the Arab masses were drowned out by the slogans of the better-organized and more popular radical Islamists. With the in-depth knowledge of a local and the keen perspective of a seasoned reporter, *After the Arab Spring* offers a piercing analysis of what the empowerment of Islamism bodes for the future of the Middle East and the impact on the West.
