The cornerstone of ELEMENTARY LINEAR ALGEBRA is the authors' clear, careful, and concise presentation of material--written so that students can fully understand how mathematics works. This program balances theory with examples, applications, and geometric intuition for a complete, step-by-step learning system. Featuring a new design that highlights the relevance of the mathematics and improves readability for students, the Seventh Edition also incorporates new conceptual Capstone exercises that reinforce multiple concepts in each section. Data and applications reflect current statistics and examples to engage students and demonstrate the link between theory and practice. After the Civil War, African Americans placed poignant "information wanted" advertisements in newspapers, searching for missing family members. Inspired by the power of these ads, Heather Andrea Williams uses slave narratives, letters, interviews, public records, and diaries to guide readers back to devastating moments of family separation during slavery when people were sold away from parents, siblings, spouses, and children. Williams explores the heartbreaking stories of separation and the long, usually unsuccessful journeys toward reunification. Examining the interior lives of the enslaved and freedpeople as they tried to come to terms with great loss, Williams grounds their grief, fear, anger, longing, frustration, and hope in the history of American slavery and the domestic slave trade. Williams follows those who were separated, chronicles their searches, and documents the rare experience of reunion. She also explores the sympathy, indifference, hostility, or empathy expressed by whites about sundered black families. Williams shows how searches for family members in the post-Civil War era continue to reverberate in African American culture in the ongoing search for family history and connection across generations.

"A fine and lively collection of exploration stories" from the author of Barrow's Boys (Kirkus Reviews). On John Franklin's 1820 expedition to find the Northwest Passage, Michel Teroahaute cannibalized two team members and was preparing a third when he was caught and killed. When Rene La Salle set off for the Mississippi Delta in 1684, he missed the target by five hundred miles, but on landing, immediately built a prison for those who fell asleep on watch. Consummate storyteller Fergus Fleming brings together these and forty-three other gripping stories spanning three ages of exploration in Off the Map. Off the Map recounts episodes both classic and forgotten: The "classics" are brought to life in more vivid colors than ever before; the lesser-known stories offer accounts of extraordinary feats that have long lain hidden. From the Renaissance golden age of Columbus, da Gama, and Magellan, to the twentieth-century heroics of polar explorers such as Peary, Scott, and Amundsen, this is an unforgettable journey into the annals of adventure. "A first-rate one-volume . . . introduction to many hair-raising stories of exploration."—The New York Times "Each story is short, punchy, and crammed with facts . . . Fleming possesses an eye for wry detail."—Adventure "There isn't a dud in the lot . . . Adventure reading of a high order: brisk, fresh and full of color."—Kirkus Reviews

Carole King's Tapestry is both an anthemic embodiment of second-wave feminism and an apotheosis of the Laurel Canyon singer-songwriter sound and scene. And these two elements of the album's historic significance are closely related insofar as the professional autonomy of the singer-songwriter is an expression of the freedom and independence women of King's generation sought as the turbulent sixties came to a close. Aligning King's own development from girl to woman with the larger shift in the music industry from teen-oriented singles by girl groups to albums by adult-oriented singer-songwriters, this volume situates Tapestry both within King's original vision as the third in a trilogy (preceded by Now That Everything's Been Said and Writer) and as a watershed in musical and cultural history, challenging the male dominance of the music and entertainment industries and laying the groundwork for female dominated genres such as women's music and Riot Grrrl punk.
