Drawing on exam data from Edexcel's Results Plus service, this book offers tailored support for the 2008 specification. It includes: exam-style questions, worked examples, guidance on practical assessment, case studies and investigations. Thinking tasks, quick questions and checklists help students track their progress.

The Edexcel Chemistry for AS Book and Student's website have been developed by two highly experienced chemistry authors to support the revised Edexcel specifications. The website (powered by Dynamic Learning), provides students with interactive pages enhanced with additional

resources. Tailored precisely to the revised Edexcel specification, The Student's Book includes both quick 'Test yourself' questions throughout each of the 19 topics and end of topic Review questions. Activities involving data analysis and contemporary contexts are also included throughout the book to help teachers and students address the new How Science Works components. The website has a full copy of the book with icons linking it to:

- Learning outcomes showing a complete list of the requirements in the specification to help students see where learning objectives and skills are covered in the book.
- Data tables
- Practical guidance on, for example, risk assessments, errors and uncertainty, titrations
