This is the newest comprehensive update to the world's #1 guide to PC repair and maintenance. World-renowned PC hardware expert Scott Mueller has thoroughly updated his legendary Upgrading and Repairing PCs to reflect today's latest PC technologies, and added a new DVD with more than two hours of digital video demonstrating PC maintenance and repair, which can be watched on either their DVD-equipped PCs or any DVD player. Mueller presents updated coverage of every significant PC component: processors, motherboards, memory, the BIOS, IDE and SCSI interfaces, drives, removable and optical storage, video and audio hardware, USB, FireWire, Internet connectivity, LANs, power supplies, even PC cases. This book also contains a detailed troubleshooting index designed to help readers rapidly diagnose more than 250 common PC hardware problems, as well as an extensive vendor contact guide, and a comprehensive PC technical glossary.

Provides information on using a PC, covering such topics as hardware, networking, burning CDs and DVDs, using the Internet, and upgrading and replacing parts.

PC Hardware in a Nutshell is the practical guide to buying, building, upgrading, and repairing Intel-based PCs. A longtime favorite among PC users, the third edition of the book now contains useful information for people running either Windows or Linux operating systems. Written for novices and seasoned professionals alike, the book is packed with useful and unbiased information, including how-to advice for specific components, ample reference material, and a comprehensive case study on building a PC. In addition to coverage of the fundamentals and general tips about working on PCs, the book includes chapters focusing on motherboards, processors, memory, floppies, hard drives, optical drives, tape devices, video devices, input devices, audio components, communications, power supplies, and maintenance. Special emphasis is given to upgrading and troubleshooting existing equipment so you can get the most from your existing investments. This new edition is expanded to include: Detailed information about the latest motherboards and chipsets from AMD, Intel, SiS, and VIA Extensive coverage of the Pentium 4 and the latest AMD processors, including the Athlon XP/MP Full details about new hard drive standards, including the latest SCSI standards, ATA/133, Serial ATA, and the new 48-bit "Big Drive" ATA interface Extended coverage of DVD drives, including DVD-RAM, DVD-R/RW, and DVD+R/RW Details about Flat Panel Displays, including how to choose one (and why you might not want to) New chapters on serial communications, parallel communications, and USB communications (including USB 2.0) Enhanced troubleshooting coverage PC Hardware in a Nutshell, 3rd Edition provides independent, useful and practical information in a no-nonsense manner with specific recommendations on components. Based on real-world testing over time, it will help you make intelligent, informed decisions about buying,

building, upgrading, and repairing PCs in a cost effective manner that will help you maximize new or existing computer hardware systems. It's loaded with real-world advice presented in a concise style that clearly delivers just the information you want, without your having to hunt for it.

A pre training material for 2 laptop repairing courses or laptop service training, Diploma in Card Level and Advanced Diploma in Chip Level Laptop Service. Basic card level servicing is removal & replacement of laptop parts that are interconnected using a card, cable or a wire and are hand removable. Advanced Chip level servicing is removal & replacement of electronic components that are soldered to the motherboard (MBD). Example: Replacing the defective MBD as a whole is Card level servicing whereas replacing the exact defective electronic component in the MBD is chip level servicing. This eBook has been written to make people aware of what Laptop Service Training in basic is as well as advanced levels. The content material of this eBook is prepared by the author and he used only this material to secure over 90% marks in the two diplomas. This was prepared from his real time experience from his training courses. These are the major ideas about Laptop servicing in training institutes that are around you in your city, state capitals and in other big cities. This eBook has good cover of most of the Servicing concepts & testing methods for your training or job career in future. You can think of or have several other commonly & currently used Laptop & its mother board models when going through this material. If you are in good interest and read the full eBook, I am sure you will get many useful tips for passing any type of diploma courses anywhere and can get hired in good service centres in the country. All details also @ www.BooksOnSecrets.com/laptop-servicing--eptm-.html Recommended Institutes for Laptop Service Training: 1. Chip Systems, Chennai, India (An ISO 9001:2008 Certified Technical Training Centre) (The training course fee for each of the two above said Diplomas will be Rs.9950/= approx.) 2. Jetking Infotrain Limited, Mumbai (An ISO 9001:2008 certified company) 3. Hi-Tech Institute of Advance Technologies, Delhi (An ISO 9001:2008 certified company) 4. Suyash Computer Training & Services, Thane (Basic & Advanced Laptop Servicing) 5. Prizm Institute, Mumbai (Advanced Laptop Servicing) 6. IICMT, Delhi (Basic & Advanced Laptop Servicing) 7.
