This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

Davie Jones—an ugly duckling growing up in small-town Mississippi with a mother who couldn't get any meaner—is positive her life couldn't be any worse. Just when she's resigned herself to her fate, she sees a movie that will change her life—*Sixteen Candles*. But in her case, life doesn't imitate art. Tormented in school and hopelessly in unrequited love with a handsome football player, Davie finds it bittersweet to dream of Molly Ringwald endings. When a cruel school prank goes too far, Davie leaves the life she knows and reinvents herself in the glittery world of Hollywood—as a beautiful and successful lounge singer. Just as she's about to ride off into the L.A. sunset, the past comes back with a vengeance, threatening to crush Davie's dreams—and break her heart again. With wholly original characters and a cinematic storyline, *32 Candles* introduces Ernessa T. Carter, a new voice in fiction with smarts, attitude, and sassiness to spare.

The Essential Resource for All IRB Members! Designed to give Institutional Review Board (IRB) members the information they need to protect the rights and welfare of research subjects in a way that is both effective and efficient, the chapters of the Institutional Review Board Member Handbook are short and to the point. Topic-specific chapters list the criteria IRB members should use to determine how to vote on specific kinds of studies and offer practical advice on what IRB members should do before and during full-committee meetings. NEW CHAPTERS in this Edition Include: * Definition of Human Subject Research, Exempt & Expedited Review Categories * IRB Member Conflict of Interest All chapters are completely updated for 2010 practice! This handbook is an excellent accompaniment to *Institutional Review Board: Management and Function*,

Agro-industrial wastes are end-products emerging after industrial processing operations and also from their treatment and disposal e.g. solid fruit wastes and sludge. The agro-industrial wastes are often present in multiphase and comprise multicomponent. Nevertheless, these wastes are a goldmine as they possess valuable organic matter which can be diverted towards high value products ranging from polymers to antibiotics to platform chemicals. There have been plenty of books published on bioenergy, enzymes and organic acids, among others. However, this emerging field of biochemical has not yet been covered so far which is an important entity of the biorefinery model from waste biomass and needs to be understood from fundamental, applied as well as commercial perspective which has been laid out in this book.

This book constitutes the thoroughly refereed post-workshop proceedings of the 7th International Workshop Radio Frequency Identification: Security and Privacy Issues. RFIDSec 2011, held in Amherst, Massachusetts, USA, in June 2011. The 12 revised full papers presented were carefully reviewed and selected from 21 initial submissions for inclusion in the book. The papers focus on minimalism in cryptography, on-tag cryptography, securing RFID with physics, and protocol-level security in RFID.

“Chronicles the heyday of the Chicago Heights subsidiary of Al Capone’s infamous Prohibition-breaking criminal organization” (Time Out Chicago). Chicago Heights was long the seat of one of the major street crews of the Chicago Outfit, but its importance has often been overlooked and misunderstood. The crew’s origins predate Prohibition, when Chicago Heights was a developing manufacturing center with a large Italian immigrant population. Its earliest bosses struggled for control until a violent gang war left the crew solidified under the auspices of Al Capone. For the remainder of the twentieth century, the boys from Chicago Heights generated large streams of revenue for the Outfit through its vast gambling enterprises, union infiltration, and stolen auto rackets. For the first time, the history of the Chicago Heights street crew is traced from its inception through its last known boss. Includes photos! “I recommend this book to anyone who is interested in the Chicago Heights Street Crew. It not only provides a well researched history of the crew, but also explains how the boys from Chicago Heights became an important, yet little known, part of the Chicago Outfit.”
