The GY6 engine design is a four-stroke single-cylinder in a near horizontal orientation that is used on a number of small motorcycles or scooters made in Taiwan, China, and other southeast Asian countries. It is believed to have originally been a Honda design. At some stage Honda used Kymco, a Taiwanese company, as a factory for Honda bikes.

Gy6 engine - Wikipedia

Our interest in the GY6 engine began with the introduction of the Ajs Modena and Lexmoto Milano scooters. The scooters are a modern recreation of what a small frame vespa might look like if they had continued with the retro look.

GY6 Engine UK

These engines are produced in several variations, 50cc versions are known as a 139QMA/QMB engine, 125cc versions are known as a 152QMI engine and 150cc versions are known as the 157QMJ engine. All GY6 copy engines are air-cooled 4-stroke with a chain-driven overhead camshaft and use a carburettor fuel delivery system.

Download Free Gy6 Engine

"And although the last few eventful years, fraught with change to the face of the whole earth, have been more fatal in their influence on Venice than the five hundred that preceded them; though the noble landscape of approach to her can now be seen no more, or seen only by a glance, as the engine slackens its rushing on the iron line; and though many of her palaces are for ever defaced, and many in desecrated ruins, there is still so much of magic in her aspect, that the hurried traveller, who must leave her before the wonder of that first aspect has been worn away, may still be led to forget the humility of her origin, and to shut his eyes to the depth of her desolation."

A service and repair manual with generic model coverage, suitable for 50 to 250cc scooters with carburettor engines. Includes a data section on the following models Aprilia SR50 (94-99), Rally 50, Sonic FT and GP, Leonardo 125.

Whether you're interested in better performance on the road or extra horsepower to be a winner on the track, this book gives you the knowledge you need to get the most out of your engine and its turbocharger system. Find out what works and what doesn't, which turbo is right for your needs, and what type of set-up will give you that extra boost. Bell shows you how to select and install the right turbo, how to prep your engine, test the systems, and integrate a turbo with EFI or carbureted engine.

National bestselling author Lucy Burdette's tenth Key West Food Critic mystery is piping hot with pie-enthusiasts and murder suspects. When a fierce rivalry between key lime pie bakers leads to a pastry chef's murder, food critic Hayley Snow is fit to be pied. During the week between Christmas and New Year's, the year-round population of Key West, Florida, faces a tsunami of tourists and snowbirds. It doesn't help that outrageously wealthy key lime pie aficionado David Sloan has persuaded the city to host his pie-baking contest. Every pie purveyor on the island is out to win the coveted Key Lime Key to the City and Key Zest food critic Hayley Snow is on the scene to report it. Meanwhile, Hayley's home life is turning more tart than sweet. Hayley's new hubby, police detective Nathan Bransford, announces that her intimidating mother-in-law is bearing down on the island for a surprise visit. Hayley offers to escort Nathan's crusty mom on the iconic Conch Train Tour of the island's holiday lights, but it becomes a recipe for disaster when they find a corpse among the glittering palm trees and fantastic flamingos. The victim--Au Citron Vert's controversial new pastry chef--was a frontrunner in Sloan's contest. It's bad enough that Hayley's too-curious mother-in-law is cooking up trouble. Now, the murderer is out to take a slice out of Hayley. Can she handle the heat of a killer's kitchen?
