This book presents the proceedings of the IUPESM World Biomedical Engineering and Medical Physics, a tri-annual high-level policy meeting dedicated exclusively to furthering the role of biomedical engineering and medical physics in medicine. The book offers papers about emerging issues related to the development and sustainability of the role and impact of medical physicists and biomedical engineers in medicine and healthcare. It provides a unique and important forum to secure a coordinated, multileveled global response to the need, demand and importance of creating and supporting strong academic and clinical teams of biomedical engineers and medical physicists for the benefit of human health.

My Road-My Steps are a valuable read to understand the subtlety of life. There is no better school to understand life, than the life lived to make a difference. The book tells the story of an ordinary boy of uneducated parents from an ordinary farming family of Punjab, India. He takes a giant step to leave his family with three pounds in pocket for England. He becomes a chartered Engineer, Successful politician, businessman and academic. He faces the challenges of life with courage, drive and ability. He walked through the corridors of power, met many world leaders, and stood firm when the life hits turbulence. He makes contributions in three world countries, U.k, Zimbabwe and Canada. It is a story to inspire and to learn, a story
