How do we develop musical creativity? How is musical creativity nurtured in collaborative improvisation? How is it used as a communicative tool in music therapy? This comprehensive volume offers new research on these questions by an international team of experts from the fields of music education, music psychology and music therapy. The book celebrates the rich diversity of ways in which

learners of all ages develop and use musical creativity. Contributions focus broadly on the composition/improvisation process, considering its conceptualization and practices in a number of contexts. The authors examine how musical creativity can be fostered in formal settings, drawing examples from primary and secondary schools, studio, conservatoire and university settings, as well as specialist music schools and music therapy sessions. These essays will inspire readers to think deeply about musical creativity and its development. The book will be of crucial interest to music educators, policy makers, researchers and students, as it draws on applied research from across the globe, promoting coherent and symbiotic links between education, music and

promotion of creative works.' - Marshall Rothstein, Justice of the Supreme Court of Canada `Dr Giuseppina D'Agostino is a protector of the arts, and her work on intellectual property is designed not only to bring law and order to our digital universe but to bring hope to the artists, poets and writers whose only hope of pursuing their artistry is to earn income for their craft. A wonderful book by one of the most wonderful and forward thinking minds in this subject area.' - Tony Chapman, Founder and CEO, Capital C, Canada `Dr D `Agostino has produced an important, carefully documented and courageous study that deserves to be widely read and discussed and (dare one say?) even to have its message heeded.' - David Vaver, University of Oxford, UK.

evaluates the efficacy of current copyright law to address the contracting and use of creative works. It looks in particular at freelance works and argues that their copyright treatment on a national and international level is inadequate to resolve ambiguities in the contracting and uses of the work. Giuseppina D'Agostino discusses how historically laws and courts were more sympathetic to creators, and how the Internet revolution has shifted the scales to favour owners. Consequently, creators often find themselves at opposing ends with copyright owners, and in a disproportionately weaker bargaining position that places tremendous strain on their livelihoods. She argues that this predicament puts society at risk of losing its most valued asset:

professional creators. The author calls for a new framework to justify legislative provisions and resolve ambiguities while suggesting principles and mechanisms to address the inadequate treatment of freelance work.
