Do you have what it takes to keep going when the going gets tough? Elijah was outnumbered 450 to One. Nehemiah had bad guys breathing down his neck. And a blind man Jesus healed was questioned by powerful politicians who were determined to change his mind. Yet these Bible heroes all proved themselves strong to press on in the work God gave them. You, too, can learn the secrets of stick-to-it-iveness as you fill in the blanks, crack the codes, solve the puzzles and find hidden words in Pressing On When the Pressure's On! Here's what others say: "Wow! I hardly needed any help from Mom to do this Bible study and the puzzles and memory verse games were really fun!" Ethan Crow Student, Age 6 – Kingsport, TN "A tremendous tool to teach children how to study the Bible and learn God's Word!" Doug Askew Young Families Pastor – Woodside Bible Church -- Troy, MI My kids loved having the Bible verses right in their workbooks; great for summer trips. Laura Meek Pastor's wife Chicago, IL "I especially liked the action steps where my kids had to listen for what God was saying to them. Fun kids' study very well done." Heather Davis Homeschool Mom of 5 – Southfield, MI "The questions lead children into deep thought and personal responses with puzzles, codes to crack and other fun activities, students of varying abilities will enjoy themselves while learning eternal truth." Jane Foard Thompson Retired Montessori Teacher – Sarasota, FL

This edition is not just a rehash of old, albeit classic and still important, stuff. Instead, it provides a fresh perspective on a topic of perennial interest for those working in the field that has been variously called training and development, human resource development, performance technology, and workplace learning and performance. The fresh perspective takes into consideration two additional instructor settings to the traditional face-to-face environments that most instructors and trainers know -- that is, online and blended settings. These settings are, of course, becoming more critical as instruction moves beyond classroom settings to include virtual and combinations of classroom and other media delivery methods. The ibstpi instructor competencies match up well to Mapping the Future (Benthal, Colteryahn, Davis, Naughton, Rothwell, & Wellins 2004), the current ASTD competency study of the field now known as Workplace Learning and Performance (WLP) and previously known as Training and Development (T&D). WLP is more than a new name for an old subject and represents a fundamental paradigm shift in what it means to be a professional in the field formerly known as training. WLP is all about getting improved performance -- and therefore improved results -- in organizational settings through planned and unplanned learning interventions. Instruction is thus a means to an end and not an end in itself. The ibstpi instructor competencies dovetail well with that philosophy.

Introduction to AutoCAD Plant 3D 2019 is a learn-by-doing manual focused on the basics of AutoCAD Plant 3D. The book helps you to learn the process of creating projects in AutoCAD Plant 3D rather than learning individual tools and commands. It consists of sixteen tutorials, which help you to complete a project successfully. The topics explained in the plant design process are: - Creating Projects - Creating and Editing P&IDs - Managing Data - Generating Reports - Creating 3D Structures - Adding Equipment - Creating Piping - Validate Drawings - Creating Isometric Drawings - Creating Orthographic Drawing - Project Management, and - Printing and Publishing Drawings

In this fascinating book, Vic Satzewich traces one hundred and twenty-five years of Ukranian migration, from the economic migration at the end of the nineteenth century to the political migration during the inter-war period and throughout the 1960s and 1980s resulting from the troubled relationship between Russia and the Ukraine. The author looks at the ways the Ukranian Diaspora has retained its identity, at the different factions within it and its response to the war crimes trials of the 1980s.

Volume II of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in-depth examination of the British government’s strategic nuclear policy from 1964 to 1970. Written with full access to the UK documentary record, Volume II examines the controversies that developed over nuclear policy following the arrival in office of a Labour government led by Harold Wilson in October 1964 that openly questioned the independence of the deterrent. Having decided to preserve the Polaris programme, Labour ministers were nevertheless committed not to develop another generation of nuclear weapons beyond those in the pipeline, placing major doubts over the long-term future of the nuclear programme and collaboration with the United States. Defence planners also became increasingly concerned that the deployment of Soviet anti-ballistic missile (ABM) defences around Moscow threatened to undermine the ability of Polaris to fulfil its role as a national strategic nuclear deterrent. During 1967, under heavy pressures to control defence spending, a protracted debate was conducted within Whitehall over the future of Polaris and how to respond to the evolving ABM challenge. The volume concludes with Labour’s defeat at the general election of June 1970, by which time the Royal Navy had assumed the nuclear deterrent role from the RAF, and plans had already been formulated for a UK project to improve Polaris which could both ensure its continuing credibility and rejuvenate the Anglo-American nuclear relationship. This book will be of much interest to students of British politics, Cold War history, nuclear proliferation and international relations.

The first novel in a YA fantasy romance series featuring "vampires with bite and girls who bite back. A witty, exhilarating and fresh take on an old tale" (Kelley Armstrong). On her sixteenth birthday, Solange Drake is going to die . . . But that's okay. As the only daughter ever born to an ancient vampire dynasty, Solange's sweet sixteen just means she will fully come into her own as an immortal. Unfortunately, it also means a lot of people both dead and undead are now watching her. Especially Kieran Black—a vengeful agent with an anti-vampire league who blames Solange’s family for his father’s death. Luckily, Solange has her human best friend, Lucy, who tries to help her have as normal a life as possible, despite her overprotective brothers and the politics of the undead realm. But when Solange is abducted by a power-hungry vampire queen, it will take all her friends—as well as the daring and dangerous Kieran—to rescue her before she loses her eternal life . . . In this “action-packed” (School Library Journal) story of love, loyalty, and blood ties, Alyxandra Harvey kicks off a saga of thrills with a nail-biter—and a neck-biter—that will have readers eager to devour the rest of the series. Hearts at Stake is the 1st book in the Drake Chronicles, which also includes Blood Feud and Out for Blood.

Sure, everyone’s seen The Rocky Horror Picture Show, The Texas Chain Saw Massacre, and Attack of the Killer Tomatoes. But as you’ll learn in this shockingly tasteless collection of great awful movies, there’s so much more to the world of truly bad film. You’ll dive into the steaming swamp of such disastrously delicious movies as: Young Hannah, Queen of the Vampires Puppet Master versus Demonic Toys Creature with the Atom Brain Cannibal Holocaust Jesus Christ, Vampire Hunter For each movie, film buff and reviewer Steve Miller includes a list of principal cast, director, producer, a plot overview, why the movie sucked, a rating, choice quotes, interesting trivia, and a quiz. For anyone who’s ever enjoyed awful movies, this is the book to have on the couch, along with the popcorn, as the opening credits flash on the screen for Gingerdead Men 2: The Passion of the Crust.

The author of Almost No Memory presents an inventive collection of short fiction that explores the various ways in which human beings perceive each other and themselves, from a couple that suspects their friends think them boring to a funeral home that receives a letter rebuking it for linguistic errors. Reprint. 10,000 first printing.
