All across the United States, individuals, families, communities, and health care systems are struggling to cope with substance use, misuse, and substance use disorders. Substance misuse and substance use disorders have devastating effects, disrupt the future plans of too many young people, and all too often, end lives prematurely and tragically. Substance misuse is a major public health challenge and a priority for our nation to address. The effects of substance use are cumulative and costly for our society, placing burdens on workplaces, the health care system, families, states, and communities. The Report discusses opportunities to bring substance use disorder treatment and mainstream health care systems into alignment so that they can address a person's overall health, rather than a substance misuse or a physical health condition alone or in isolation. It also provides suggestions and recommendations for action that everyone—individuals, families, community leaders, law enforcement, health care professionals, policymakers, and researchers—can take to prevent substance misuse and reduce its consequences.

Insolent and defiant, the Chants de Maldoror, by the self-styled Comte de Lautréamont (1846–70), depicts a sinister and sadistic world of unrestrained savagery and brutality. One of the earliest and most astonishing examples of surrealist writing, it follows the experiences of Maldoror, a master of disguises pursued by the police as the incarnation of evil, as he makes his way through a nightmarish realm of angels and gravediggers, hermaphrodites and prostitutes, lunatics and strange children. Delirious, erotic, blasphemous and grandiose by turns, this hallucinatory novel captured the imagination of artists and writers as diverse as Modigliani, Verlaine, André Gide and André Breton; it was hailed by the twentieth-century Surrealist movement as a formative and revelatory masterpiece.

"In an intense tale of psychological suspense, a San Francisco psychiatrist becomes sexually involved with a female patient who suffers from multiple personality disorder, and whose pathological ex-husband is an Oakland homicide detective--from a Los Angeles Times Book Prize-winning author. Dr. Eldon Chance is a brilliant, lonely, forensic neuropsychologist with a long track record of getting involved with damaged, complicated women. While apartment hunting after separating from his wife, a series of bad decisions leads to Chance sleeping with a patient named Jaclyn Blackstone. Unfortunately her ex-husband is an Oakland homicide detective and the jealous type. Meanwhile, Dr. Chance meets a young man who goes by "D"; Chance believes he is a war-veteran, but he is in fact a deranged loner and self-styled Samurai skilled in the art of the blade. D is fascinated by Chance's tales of his tormented and increasingly dangerous affair with Jaclyn and advises him that her ex-husband will find a way to destroy Chance. As Detective Blackstone does indeed threaten the doctor, Chance and D plan a counter-strike. Meanwhile Chance continues his steamy affair with Jaclyn Blackstone (or is it one of her multiple personalities?) But the sexually voracious "Jackie Black" has a story that is far more complex and darker than he could have ever imagined ... Gritty, twisted, and impossible to put down, the surprises keep coming in Chance until the final page has been turned"--

Gabi Greenberg loved Hanukkah. She loved to watch the sun go down. She loved to see the sky grow dark. When the stars appeared, she loved to light the menorah. When Gabi receives a new tricycle, she names it "Hanukkah" and vows to ride it everywhere.
