Featuring 100 photographs of Frank Sinatra working with orchestras and arrangers, listening to playbacks, and, of course, singing, this book tells the whole story of how he created the Sinatra sound and translated the most intense personal emotions into richly worked-out songs of unrivalled expressiveness. One of the thrills of listening to Sinatra is wondering how he did it--and this book explains it all, bringing the dedicated fan and the casual music lover alike into the recording studio to witness the fascinating working methods he introduced and mastered in his quest for recorded perfection. Revealed is how, in addition to introducing and perfecting a unique vocal style, Sinatra was also his own in-studio producer--personally supervising every aspect of his recordings, from choosing the songs and arrangers to making minute adjustments in microphone placement.

Unholy Ghost is a unique collection of essays about depression that, in the spirit of William Styron's Darkness Visible, finds vivid expression for an elusive illness suffered by more than one in five Americans today. Unlike any other memoir of depression, however, Unholy Ghost includes many voices and depicts the most complete portrait of the illness. Lauren Slater eloquently describes her own perilous experience as a pregnant woman on antidepressant medication. Susanna Kaysen, writing for the first time about depression since Girl, Interrupted, criticizes herself and others for making too much of the illness. Larry McMurtry recounts the despair that descended after his quadruple bypass surgery. Meri Danguah describes the challenges of racism and depression. Ann Beattie sees melancholy as a consequence of her writing life. And Donald Hall lovingly remembers the "moody seasaw" of his relationship with his wife, Jane Kenyon. The collection also includes an illuminating series of companion pieces. Russell Banks's and Chase Twichell's essays represent husband-and-wife perspectives on depression; Rose Styron's contribution about her husband's struggle with melancholy is paired with an excerpt from William Styron's Darkness Visible; and the book's editor, Nell Casey, juxtaposes her own essay about seeing her sister through her depression with Maud Casey's account of this experience. These companion pieces portray the complicated bond -- a constant grasp for mutual understanding--between depressives and their family members. With an introduction by Kay Redfield Jamison, Unholy Ghost allows the bewildering experience of depression to be adequately and beautifully rendered. The twenty-two stories that make up this book will offer solace and enlightenment to all readers.

In recent years there has been an increased public and academic interest in the new activism within Turkish foreign policy and Turkey's search for a more ambitious role. This book represents a new outlook, perception and conceptualization on Turkish Foreign Policy and offers contributions from various experts in their fields. The volume includes over forty chapters that cover ten area-based analyses including Turkey's relations with the EU, the Middle East, Cyprus and the US, the Balkans, the Mediterranean, Central Asia, Latin America, the Far East and International Organizations.

After living on the streets of New York City for over a decade, Logan Ellis admits her perceptions might be a little skewed. But twisted or not, there's a satisfying irony in watching a well dressed vampire stand in the middle of a ghetto alley, windblown trash scraping small circles near his feet. What she finds even more intriguing, is waiting for him to decide whether or not he's going to kill her. Kerestyan Nelek hasn't quite made up his mind. As the Lord of New York, he can't allow a homeless drug addict, whose memories are packed with knowledge of vampiric existence, to run free in his city. It's not the first time he's been in this situation with a human, it's just the first time in thousands of years he's come face to face with one who doesn't seem to care. And that's what makes the decision so damn difficult.What horrors would you have to witness before you went numb? How many years would it take for you to feel that way? What would it take to make you care again?Logan's answers are simple: the worst humanity has to offer, almost thirty,and something she never expected.

Sixteen-year-old Teresa Parker's life is turned upside down. She has recently made some new friends and then tragedy strikes. In the aftermath, she discovers a promise that one friend left behind. He's seen her through this far. Will she trust him to get her through what lies ahead?

Is private ownership an inviolate right that individuals can wield as they see fit? Or is it better understood in more collective terms, as an institution that communities reshape over time to promote evolving goals? What should it mean to be a private landowner in an age of sprawling growth and declining biological diversity? These provocative questions lie at the heart of this perceptive and wide-ranging new book by legal scholar and conservationist Eric Freyfogle. Bringing together insights from history, law, philosophy, and ecology, Freyfogle undertakes a fascinating inquiry into the ownership of nature, leading us behind publicized and contentious disputes over open-space regulation, wetlands protection, and wildlife habitat to reveal the foundations of and changing ideas about private ownership in America. Drawing upon ideas from Thomas Jefferson, Henry George, and Aldo Leopold and interweaving engaging accounts of actual disputes over land-use issues, Freyfogle develops a powerful vision of what private ownership in America could mean--an ownership system, fair to owners and taxpayers alike, that fosters healthy land and healthy economies.
