The Enemy Within. See, the truth is I knew Abigail was pregnant even before Jide my best friend who impregnated her knew about it. I was the first person she told and had begged me not to tell another soul except for Jide. Jide happens to be a high ranking staff at my work place.

The Enemy Within By Madera | A Tale Of Love, Lust—

The Enemy Within is a preminent political account of the British Muslim experience, focusing on the most pressing concerns facing communities: namely, the twin evils of terrorism and Islamophobia. Warsi 's analysis of the problems facing British Muslims today is frank, and at times quite witty, as she pokes fun at the absurdity of the men around her.

'Hard headed, well informed and intellectually coherent ... it turns conventional wisdom on its head. It deserves to promote a public debate on this subject which has been needed for more than 20 years' Peter Osborne
Britain has often found groups within its borders whom it does not trust, whom it feels have a belief, culture, practice or agenda which runs contrary to those of the majority. From Catholics to Jews, miners to trade unionists, Marxists to liberals and even homosexuals, all have at times been viewed, described and treated as 'the enemy within'. Muslims are the latest in a long line of 'others' to be given this label. How did this state of affairs come to pass? What are the lessons and challenges for the future - and how will the tale of Muslim Britain develop? Sayeeda Warsi draws on her own unique position in British life, as the child of Pakistani immigrants, an outsider, who became an insider, the UK's first Muslim Cabinet minister, to explore questions of cultural difference, terrorism, surveillance, social justice, religious freedom, integration and the meaning of 'British values'. Uncompromising and outspoken, filled with arguments, real-life experience, necessary truths and possible ways forward for Muslims, politicians and the rest of us, this is a timely and urgent book. "This thoughtful and passionate book offers hope amid the gloom" David Anderson QC, Independent Reviewer of Terrorism Legislation "A vital book at a critical time" Helena Kennedy QC

Joe has been trying to tell this story for some time. It's his story, but not his alone. It's also the story of those who lived and died alongside him, in Viet Nam and in that other battle, for justice and safety under the shield of the law, that is fought daily in the streets of every big city by every honest cop. In his case, the city was the Naked City and the cop was a Latino. And the battle was neither for the civilians alone, nor just against the bad guys in the street. Sometimes the bad guys were in the Department. And sometimes the people who needed protection were the honest cops.

Sir Tristan Hiregaard, terrified by his periodic transformation into the evil Malken, a hideous man-beast who controls a vast criminal empire, sets out to destroy, one way or another, his evil side.

Two Pulitzer Prize-winning journalists take an unbridled look into one of the most sensitive post-9/11 national security investigations—a breathtaking race to stop a second devastating terrorist attack on American soil. In Enemies Within, Matt Apuzzo and Adam Goldman " reveal how New York really works " (James Risen, author of State of War) and lay bare the complex and often contradictory state of counterterrorism and intelligence in America through the pursuit of Najibullah Zazi, a terrorist bomber who trained under one of bin Laden 's most trusted deputies. Zazi and his co-conspirators represented America 's greatest fear: a terrorist cell operating inside America. This real-life spy story—uncovered in previously unpublished secret NYPD documents and interviews with intelligence sources—shows that while many of our counterterrorism programs are more invasive than ever, they are often counterproductive at best. After 9/11, New York Polios Commissioner Ray Kelly initiated an audacious plan for the Big Apple: dispatch a vast network of plainclothes officers and paid informants—called " rakers " and " mosque crawlers "—into Muslim neighborhoods to infiltrate religious communities and eavesdrop on college campuses. Police amassed data on innocent people, often for their religious and political beliefs. But when it mattered most, these strategies failed to identify the most imminent threats. In Enemies Within, Apuzzo and Goldman tackle the tough questions about the measures that we take to protect ourselves from real and perceived threats. They take you inside America 's sprawling counterterrorism machine while it operates at full throttle. They reveal what works, what doesn 't, and what Americans have unknowingly given up. " Did the Snowden leaks trouble you? You ain 't seen nothing yet " (Dan Bigman, Forbes editor).

Horrific torture in an alien prison torpedoed Captain Ari Idyllie's military career. Stripped of command and banished to her father's scientific expedition to finish a PhD she doesn't want, Ari refuses to fly a desk. She intends to have her command back by any means possible, until pirates commandeer her father's ship, and she's once again a prisoner. Perhaps this cunning captor isn't what he pretends to be. As far as Cullin Seaghdh is concerned, the same goes for Ari. Her past association with aliens puts her dead center in Cullin's cross-hairs. If she hasn't been brainwashed and returned as a spy, then she must be part of a traitorous alliance endangering billions of lives. His mission comes first. He'll stop at nothing, including her destruction, to uncover her true purpose and protect what is his.

In the wake of a devastating disease, everyone sixteen and older is either dead or a decomposing, brainless creature with a ravenous appetite for flesh. Teens have barricaded themselves in buildings throughout London and venture outside only when they need to scavenge for food. The group of kids living a Waitrose supermarket is beginning to run out of options. When a mysterious traveler arrives and offers them safe haven at Buckingham Palace, they begin a harrowing journey across London. But their fight is far from over???the threat from within the palace is as real as the one outside it. Full of unexpected twists and quick-thinking heroes, The Enemy is a fast-paced, white-knuckle tale of survival in the face of unimaginable horror.

Margaret Thatcher branded the leaders of the 1984-85 miners strike " the enemy within. " With the publication of this book, the full irony of that accusation became clear. Seumas Milne revealed for the first time the astonishing lengths to which the government and its intelligence machine were prepared to go to destroy the power of Britain 's miners ' union. There was an enemy within. It was the secret services of the British state, operating inside the NUM itself. Milne revealed for the first time the astonishing lengths to which the government and its intelligence machine were prepared to go to destroy the power of Britain 's miners ' union. Using phoney bank deposits, staged cash drops, forged documents, agents provocateurs and unrelenting surveillance, MI5 and police Special Branch set out to discredit Scargill and other miners ' leaders. Planted tales of corruption were seized on by the media and both Tory and Labour politicians in what became an unprecedentedly savage smear campaign.

This book examines Shakespeare 's depiction of foreign queens as he uses them to reveal and embody tensions within early modern English politics. Linking early modern and contemporary political theory and concerns through the concepts of fragmented identity, hospitality, citizenship, and banishment, Sandra Logan takes up a set of questions not widely addressed by scholars of early modern queenship. How does Shakespeare 's representation of these queens challenge the opposition between friend and enemy that ostensibly defines the context of the political? And how do these queens expose the abusive potential of the sovereign? Focusing on Katherine of Aragon in Henry VIII, Hermione in The Winter 's Tale, Tamora in Titus Andronicus, and Margaret in the first history tetralogy, Logan considers them as means for exploring conditions of vulnerability, alienation, and exclusion common to subjects of every social position, exposing the sovereign himself as the true enemy of the state.

Defending an innocent young man, defense attorney Paul Madriani uncovers a morass of corruption and greed that leads to the highest levels of political power in this electrifying tale of suspense from New York Times bestselling author Steve Martini. One of the most successful lawyers in the country, Olinda Serna is a master at managing money as well as her influential clients. After years of fierce combat in the political trenches, Serna knows all the dirty secrets, where the bodies are buried, and how deeply they are stacked. When she 's killed in a roadside crash in the high desert of Southern California, powerful heads in Washington begin to panic, worried that their secrets may not be safe anymore. Alex Ives, a friend of Paul Madriani 's daughter, is accused of vehicular manslaughter in Serna 's death. Ives claims he had only one drink on the night of the accident, yet he can 't remember anything between the time he left for a party north of San Diego and the moment he woke up in a hospital the next morning. He 's still dazed and a little bruised, but also obviously very afraid. After all, a woman is dead, and he 's sure he didn 't kill her. To save an innocent young man 's life, the brilliant defense attorney must uncover everything he can about Serna and her clients—no matter how unworthy—a search that will lead him into a vortex of corruption, and at its center, a devious killer poised to strike again.

A collection of linked short stories by the author of When Skateboards Will Be Free includes several pieces originally published in The New Yorker and features a sequence of aimless young men who endure morning commutes, complicated affairs and cruel bosses while pursuing better jobs.
