1948-1953. The Second World War is a history of the period from the end of the First World War to July 1945, written by Winston Churchill. Churchill labelled the "moral of the work" as follows: "In War: Resolution, In Defeat: Defiance, In Victory: Magnanimity, In Peace: Goodwill". Churchill wrote the book, with a team of assistants, using both his own notes and privileged access to official documents while still working as a politician; the text was vetted by the Cabinet Secretary.

Winston Churchill's faults as a peace time politician have been well documented. His failings as a human being have also been pointed out. He was, by many accounts, exasperating, tireless, a control freak and he had an ego. You will get whiffs of all of that as you read this, his own abridgement of his account of the second world war.

During the Second World War, a group of basement offices in Whitehall served as the centre of Britain's war effort. The complex, known as the Cabinet War Rooms, was occupied by leading government ministers, military strategists and Prime Minister Winston Churchill.

An account of World War II from 1943 to June 5, 1944 tracing the liberation of France and the slow collapse of Nazi Germany

Surveys the war and its politics

Book I: From war to war : 1919-1939 Book II: The twilight war : Sept. 3, 1939- May 10, 1940.

"I am perhaps the only man who has passed through the twosupreme cataclysms of recorded history in high executive office... I was in thissecond struggle with Germany for more than five years the head of His Majesty'sGovernment. I write therefore from a different standpoint and with moreauthority than was possible in my earlier books. I do not describe it as ahistory, for that belongs to another generation. But I claim with confidencethat it is a contribution to history which will be of service to the future." Sir Winston Churchill From the origins of the conflict, the rise of Hitler and thefutile attempts at appeasement, through the darkest days of Britain's lonestand against the Axis powers, the great alliances with the USA and SovietRussia and the triumphs of D Day and the eventual liberation of Europe

to the terrible birth of the Cold War under the shadow of nuclear weaponry, this is Winston Churchill's landmark history of World War II. At once a personal account and a majestic history, The Second World War remains Churchill's literary masterpiece.

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included Stalingrad and The Fall of Berlin 1945. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

Winston Churchill's six-volume history of the cataclysm that swept the world remains the definitive history of the Second World War. Lucid, dramatic, remarkable both for its breadth and sweep and for its sense of personal involvement, it is universally acknowledged as a magnificent reconstruction and is an enduring, compelling work that led to his being awarded the Nobel Prize for literature. Closing the Ring chronicles the period between June 1943 and July 1944 as the Allies consolidated their gains towards a drive to victory the fall of Mussolini, Hitler's secret weapon', the mounting air offensive on Germany, strategies to defeat Japan and the plans for D Day.
