The Trauma Nursing Core Course (TNCC) can be a very daunting class to take as a new nurse. I was pretty much terrified when I was told I had to not only take the class but was only going to get a few weeks to study for it. They handed me this massive textbook and I was told to read the whole thing before class. I was completely overwhelmed.

Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection.

"The book is clearly written and concise and uses sidebars to highlight core concepts." Score: 90, 4 stars --Doody's Because ER nurses need to think fast and act fast... Fast Facts for the ER Nurse is an orientation guide and reference, designed specifically for new ER nurses and the preceptors responsible for their orientation.
